LANGUAGE

Turkish / Native

English / B2+

EDUCATION

Muğla Sıtkı Koçman University

Digital Game Design 2021 - 2026

ABOUT ME

A Digital Game Design graduate from Muğla Sıtkı Koçman University Bodrum Faculty of Fine Arts with four years of hands-on experience in game development. Versatile in taking on core responsibilities including Game Design, Gameplay Programming, and Project Management across various titles. Proficient in Unity and Unreal Engine, specializing in level design and the implementation of engaging gameplay mechanics. Developing my skills in writing game design documents and managing game data with Excel.

EXPERIENCE

TaleWorlds Entertainment | Game Design Intern 2026

- Contributed to enemy design iterations and configured in-engine content to meet project requirements.
- Modified existing map content and implemented structural level changes within the game environment.
- Improved my technical skills in Unreal Engine, LibreOffice, and Google Sheets throughout the production cycle.

UDO Games | Game Development Intern 2025

- Developed "Dig It" a mobile game title, by implementing core gameplay mechanics and character controllers using Unity and C#.
- Designed and integrated responsive UI/UX systems and game-state logic to ensure a seamless mobile user experience.
- Collaborated with the development team to optimize game performance and resolve technical bugs using Git for version control.

PROJECTS

Senzora / Sep 2025 - July 2026

Game Designer

Sins: Unveiled / Feb 2025 - June 2025

Project Manager and Programmer
